

FOUR WAYS TO FIGHT A.G.E.s

TrūAge CORE

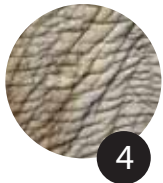

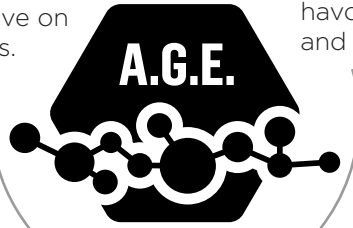

A.G.E.s FORM IN THE BODY

AGEs must be disrupted and prevented using the proven power of iridoids in order to protect the body from the harmful effects they have on our organs and systems.

SUGAR IS BAD

Excess sugar in our bodies and in our food can bind with protein to create AGEs that wreak havoc on our organs and tissues.

GLYCATION HARMS THE SKIN

Glycation, the process by which AGEs are formed, is one of the root causes of aging in the skin.

PROTEIN IS GOOD

Protein helps build lean muscle which regulates glucose levels and burns excess sugar, preventing the formation of some AGEs.

TrūAge CORE

THE ONLY COMPREHENSIVE APPROACH TO CONTROLLING A.G.E.s ON THE PLANET

BLOCK A.G.E.s

Iridoids in Max and TNJ have been proven to disrupt the formation of AGEs and help the body reverse their negative effects.

STOP SUGAR

Conquer's blend of earth's best ingredients identifies and eliminates some complex sugars from the body.

DELIVER QUALITY PROTEIN

Rapid Fuel delivers high-quality protein perfectly optimized to build lean muscle and burn excess sugar.

FIGHT A.G.E.s IN THE SKIN

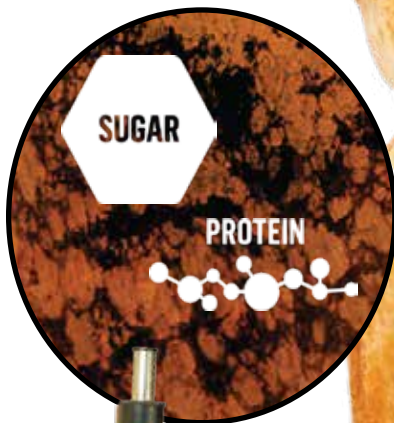

Anti-Glycation Gel fights the external effects of glycation and can make you look years younger.

INTRODUCING

THE TOAST TEST

1912

Louis Maillard wonders why bread turns brown when toasted. He discovers that the browning effect is caused by sugar and protein molecules binding together during the heating process.

1960

These “Maillard Reaction Products” are discovered in living organisms.

1989

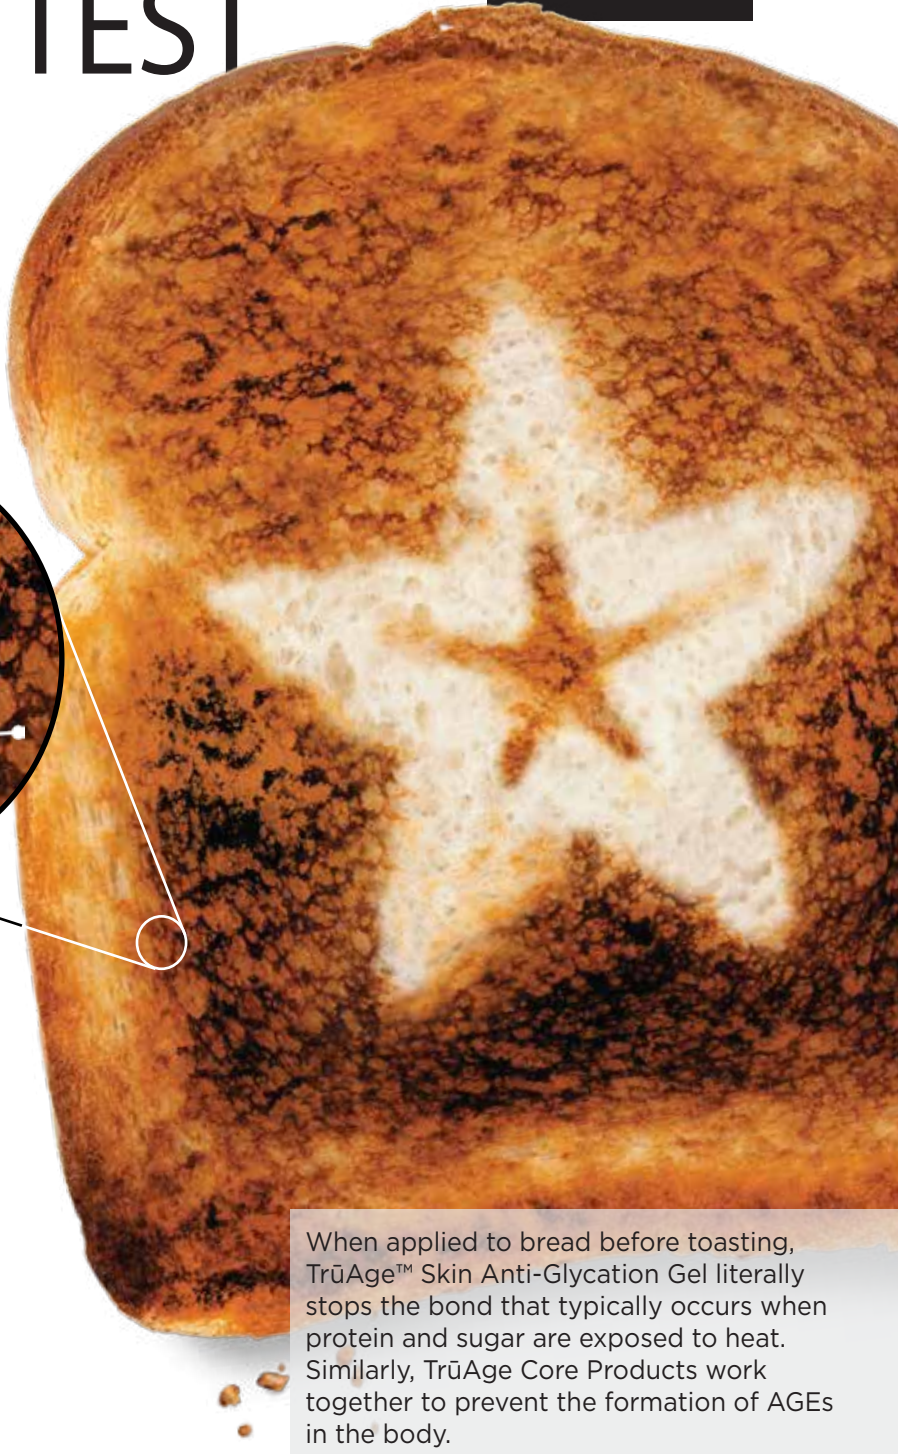

The term “Advanced Glycation End-Product” or “AGE” is coined. AGEs are discovered in human beings.

1990s

Continuing research links AGEs with human health and aging concerns.

2014

What started with Louis Maillard’s curiosity about toast, leads to the development and launch of the world’s first comprehensive AGE-fighting system: **TrūAge Core**.

When applied to bread before toasting, TrūAge™ Skin Anti-Glycation Gel literally stops the bond that typically occurs when protein and sugar are exposed to heat. Similarly, TrūAge Core Products work together to prevent the formation of AGEs in the body.
